

2020 Cleaning Schedule

JANUARY

Happy New Year! Start the year off right with a cleaner and happier home! It's time to declutter - sort, recycle, keep, trash, or donate unnecessary items.

FEBRUARY

Give your home some fresh air! Hire a good HVAC professional for regular cleaning and maintenance of your HVAC system.

MARCH

It's time for a Spring/Deep Cleaning! Disinfect kitchen appliances such as fridge, oven, microwave, cabinets, etc...

APRIL

Deep clean carpets, rugs, and upholsterers. New flooring? Consider switching from carpet to hardwood or tile due to easier maintenance.

MAY

Don't neglect your garage and vehicle! Get rid of nonessential items. Clean and organize tools, shelves, and get your car detailed.

JUNE

Power-wash patio and driveway to remove dirt, mildew, grime, and stains that accumulate over time.

JULY

Trim trees and clean gutters. Leaves and twigs clog the gutters causing significant damages to your drainage system and to your house, especially during the rainy season.

AUGUST

Clean windows inside and outside. Over time, they get blurry because of dust, pollen, steam, grease, pets, and fingerprints. Clean windows give a better view!

SEPTEMBER

Give a good treatment to your fireplace and chimney. Chimney's dirt, dust, and other residues affect indoor air quality and can lead to a sooty and smelly home interior.

OCTOBER

Trick or treat! Prepare your front and backyards for your Halloween guests!

NOVEMBER

Prepare your home for the holiday season! Special attention to bedrooms, living room, and dining areas!

DECEMBER

Christmas is here! Time to wipe down the Christmas decoration and give a special polish on glassware and utensils.
